Telstar Regional High School

To The Graduates of the Class of 2004,

Congratulations on your many successes and accomplishments over the years. Your hard work and positive efforts have resulted in a high school career that you will look back on fondly. Perhaps without even realizing it, you have made friendships that will last a lifetime and formed bonds with each other that will not fade as the years go by. In addition, you have learned a lot about yourself. Many of you have set personal goals academically and athletically and have continued to adjust the bar higher as these goals have been met. These efforts will serve you well in the years to come. I have been fortunate to have had the unique opportunity of knowing many of you since the first day you started your school career. Many others have become friends along the way. I have enjoyed following your careers and will look forward to continuing to do so as you set new challenges for yourself. As the Class of 2004, you have left an indelible mark on our school district with your many positive efforts throughout the years. You will be missed.

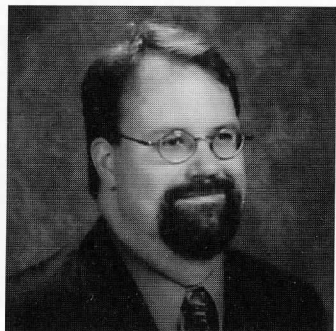

To quote an old Irish blessing:

May your day be filled with blessings,/Like the sun that lights the sky./And may you always have the courage,/To spread your wings and fly.

Thank you for a job well done and best wishes for a future filled with good health and continued success!

Your Friend,

David W. Murphy, Ed.D.

To the Class of 2004:

Congratulations!

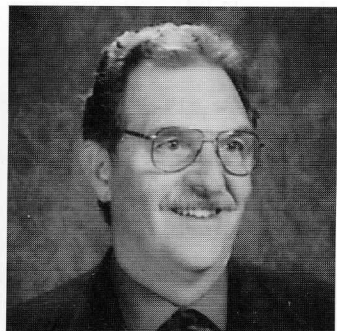

As your high school career comes to a close, I want to share with you how honored I am to have known and worked with each of you. And as you prepare to enter the world, I challenge you all to work hard, play hard, and find balance in life.

Remember that nothing in life is easy but everything is possible if you are willing to strive for it. Remember also how important friends and family are and always try to make time for them. Finally, remember what is most important to you and that you will always be happy if you keep everything in perspective.

Good luck in the future!

Shawn L. Lambert

Principal

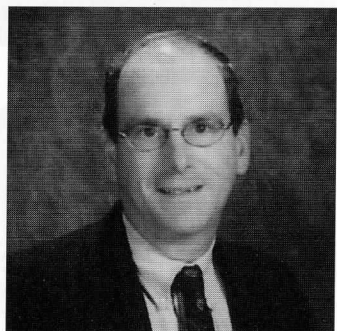

Congratulations to the Class of 2004. You, as well as I, will be leaving Telstar in June to pursue other interests. Life will be quite different for you and for me. Whatever path you take, remember the many lessons learned and the many friends you have made. Set your sights high and pursue your dreams. If you shoot for the moon and miss, you will still be among the stars. Whatever you choose to do for your life work, do it right and do it to the best of your ability with a smile on your face. We can't all be brain surgeons, but we can all contribute to mankind or make a difference in someones life in our own special way.

Best wishes,

Carroll Higgins

Assistant Principal/Athletic Director

To the class of 2004,

Thank you for all of the support you have shown me this year as I transition from twenty memorable years in the classrooms to my new role as Dean of Students. My goal to help provide a safe and secure learning environment for all students at Telstar has been made easier by your words of encouragement. I believe in the staff and students of Telstar and am proud to be in a position that encourages students to make thoughtful decisions, values the individual, and promotes the well being of our school population. I wish you all great success as you pursue your dreams. You have supported mine.

Forever in your service,

Charles Raymond

Dean of Students

To the Class of 2004,

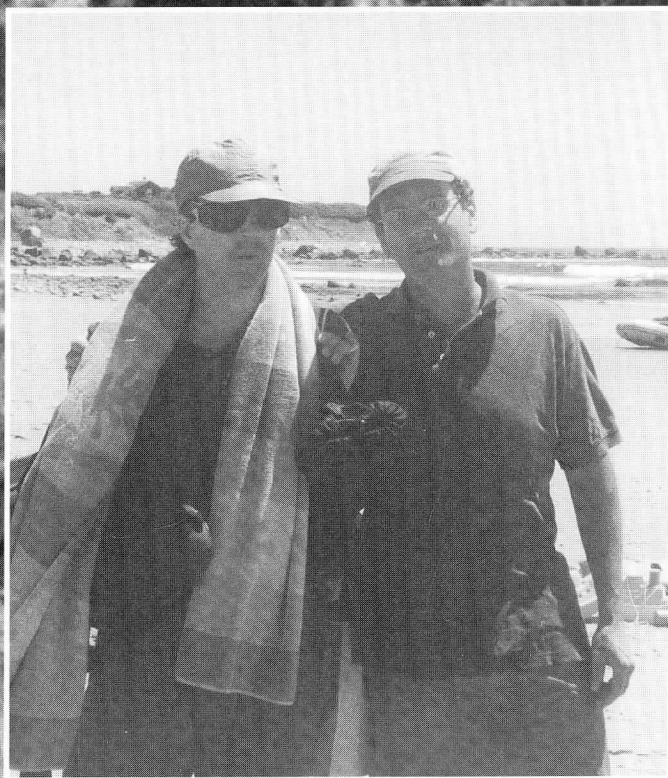

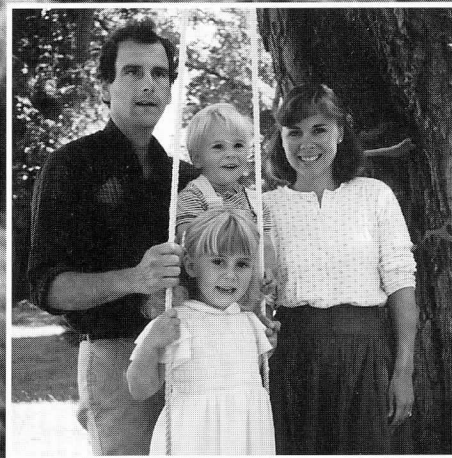

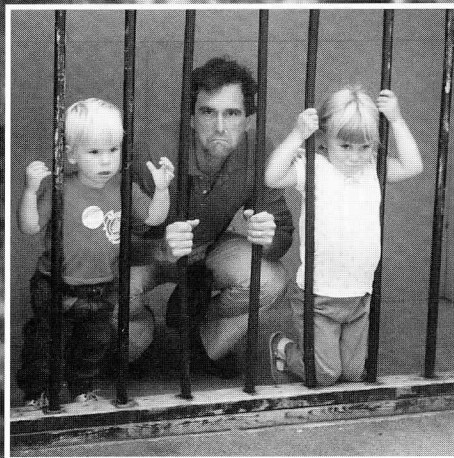

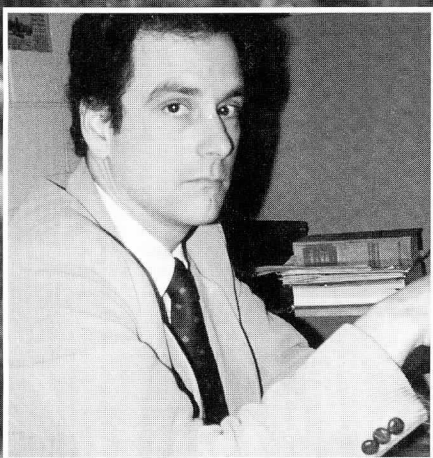

You have reached another milestone, graduation from Telstar. You have been together for thirteen years, learning and growing. We, your teachers, parents, and community members have tried to give you a strong foundation for the future that you are just now beginning. Strive to live well, to love and to laugh. Do the best that you can in each new endeavor. Remember that the world is yours to fashion as you and others of your generation believe. Those who have gone before you have given their best, now you must do the same. We will be here to support you and to recognize your achievements. Congratulations and Best Wishes!

We all have dreams. Small or big, we all desire something out of life. If we didn't, we would have no reason to go on living. Dreams give us motivation, and they make us who we are. As school comes to a close for us, and we are reaching the point where we leave this place of dreams to the arena in which we win them, we must reflect on what we have done here. Our ordeals thus far have laid the stones out for the rest of our lives. Now is the time to take action and to savor the moments one has left. Now is the time to leave the protective shell that one has depended on these past years. Now is the time to truly mature. We must remember that, no matter how difficult the paths ahead of us become, we must persevere.

I came to telstar not expecting much, from the teachers , or the community. However all of my stereotypes of a small town changed when I got here and started to get to know the teachers, now because I opened my mind to their teaching, I have learned whatto expect from the world, and how to counter the hard times that it will most definately throw against me. I also never expected to find the affection of a friend or even a significant other, but that changed as well,Thank-you Priscilla and Mary, you two have helped me tremendously in school and learning as a human being, and thatnk-you all and a special thank-you to my parents

There is something about dragons all fire and steam
They go together in the midst of our dreams
The dragon is wise beyond it's years It sets no limits and faces all fears
The dragon is powerful in body and mind Is true to it's heart and true to it's kind
The dragon is just and fights for what's right
To all who encounter it, their lives are made bright
The traits of the dragon we should all embrace
And toghether we'll make this world a better place!

I remember most things here at Telstar and basically the only thing that I can say is that it was not fun. Telstar did half it's best in trying to help me. There are too many things that went on during my time at Telstar. I don't think I could tell you any of them here but come up to me and ask me sometime, I'll give you the Low Down. Y'all know me, still that same ol' G. I got love for my boys past and present, but I got more love for the ladies. To my parents thank you I love you lots. To my sister I love you too! Thanks for the advice. To the fallen and downed soldiers like the Duck. RIP—Like Tupac said, "It's not about East and West. It's hard to believe that I'm a Senior. It seems like just yesterday I was fighting with my brother over who gets on the bus first. It has been a tough fight to get where I am, and I have many people to thank for it. Mom, Thanks for not giving up on your "Work in Progress". Everyone who has supported me, and guided me, I hope you know how much it meant to me. Some people have made it hard on me this year, but I made it! To anyone who has hopes and dreams, never give them up. Try hard even when people try to stop you. Believe in yourself and you will go far.

High school has gone by so fast. I still can remember pre-school. I've made a lot of friends and lost some but that's how life goes I guess. My parents were always there behind me to push me forward and to motivate me to get good grades and I thank you guys for doing that because if you hadn't I wouldn't have been able to get this far. Tanya, I've had so many good times with you that I could never write them all down but you're the best friend I could ever have. Erin, you've been my best friend since forever and I know that we will have many more good times together in the future, BFF's for life! Jeff, I know you've graduated but you have been one of the best things to happen to me in a long time, I love you!! To all of those that are still stuck in school, enjoy it while it lasts because before you know it you'll graduate and realize just how much you miss it all.

Student Life

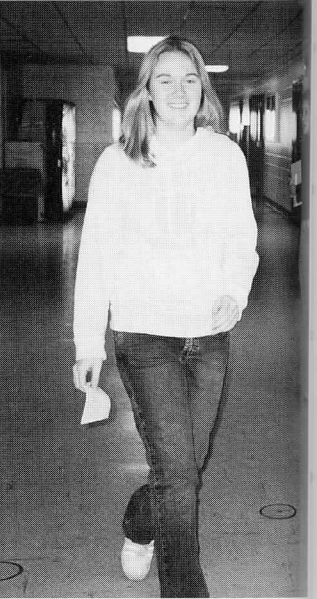

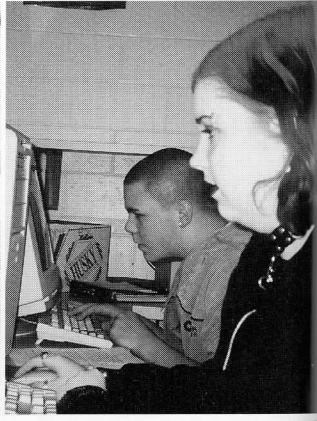

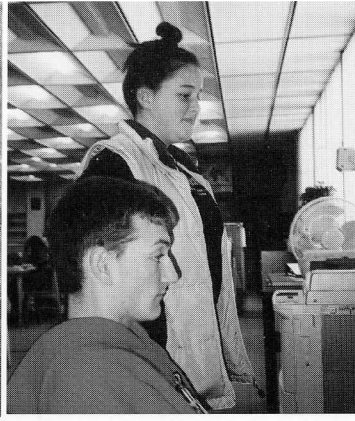

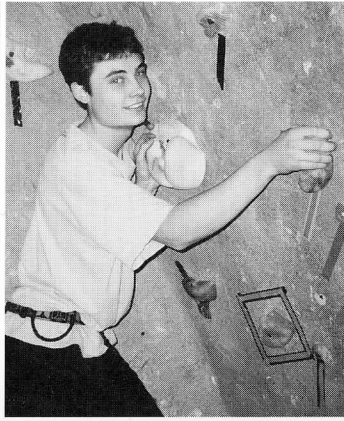

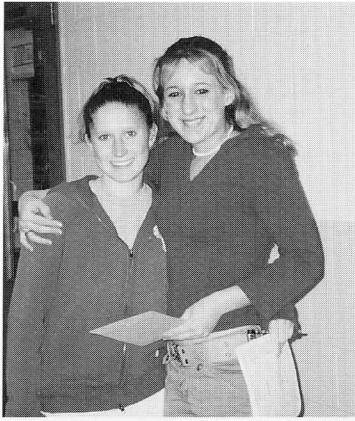

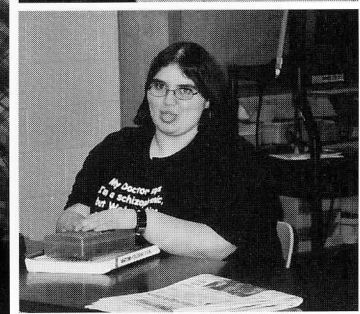

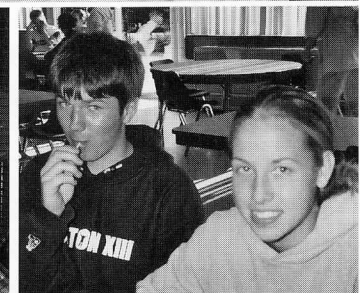

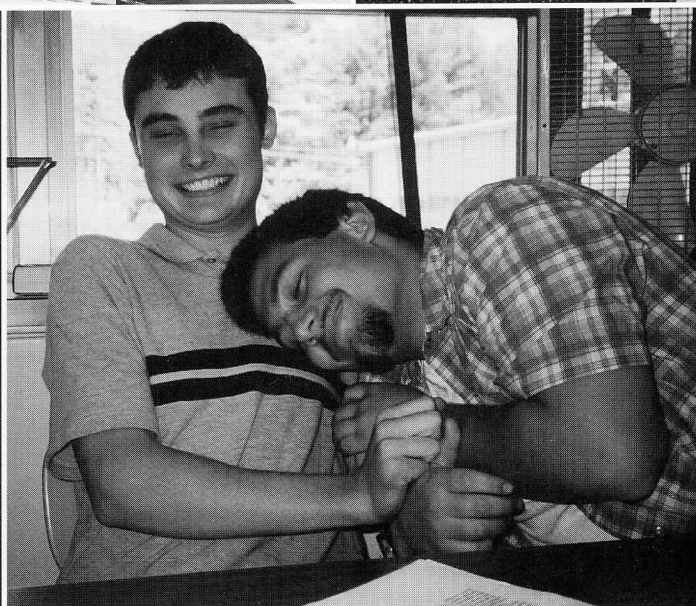

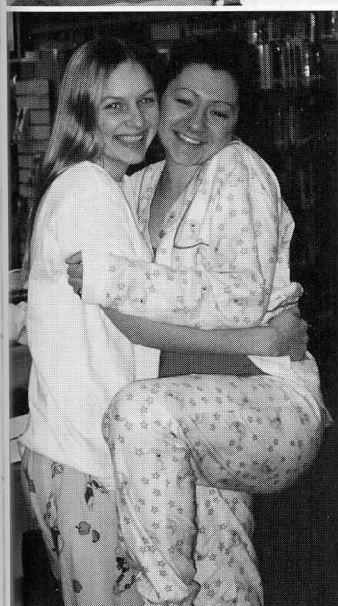

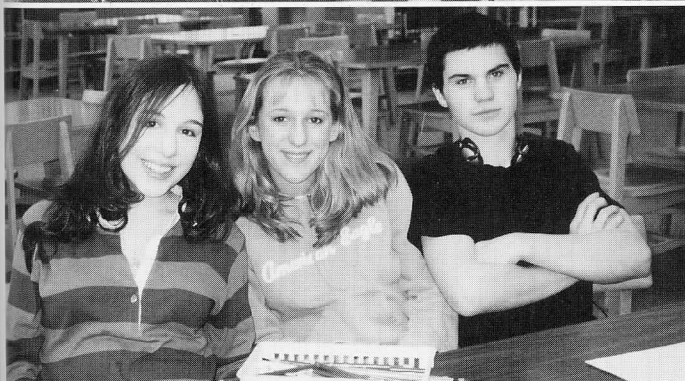

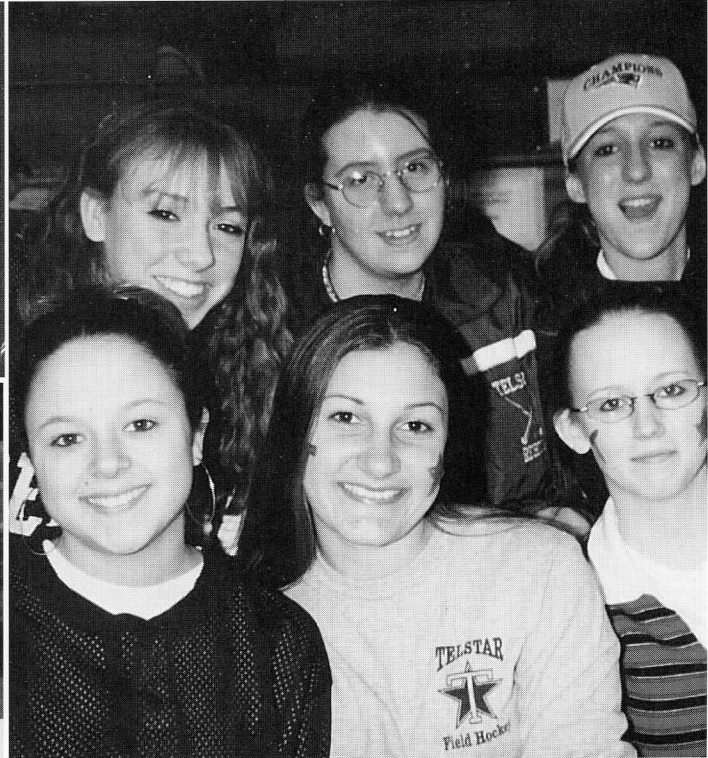

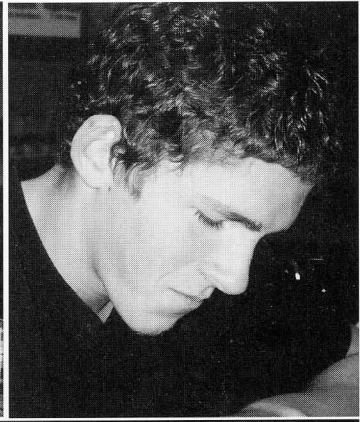

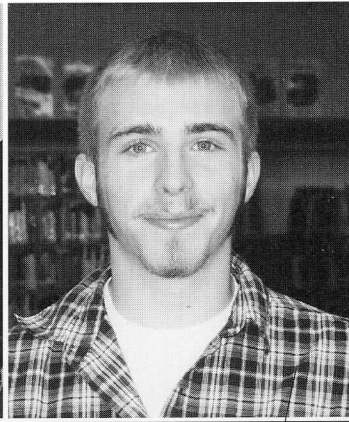

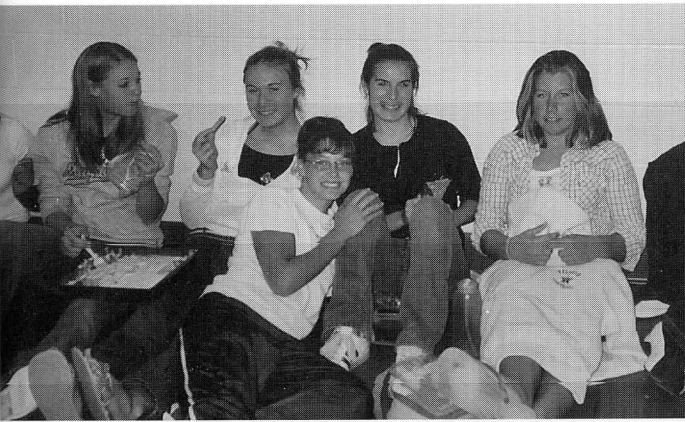

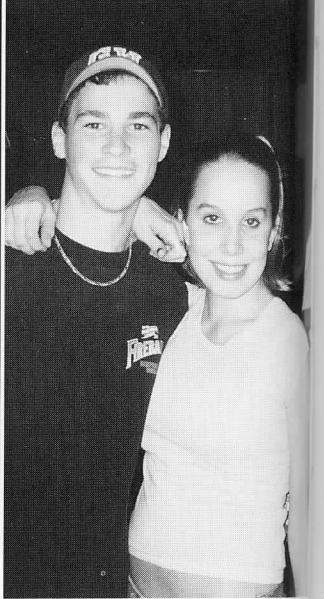

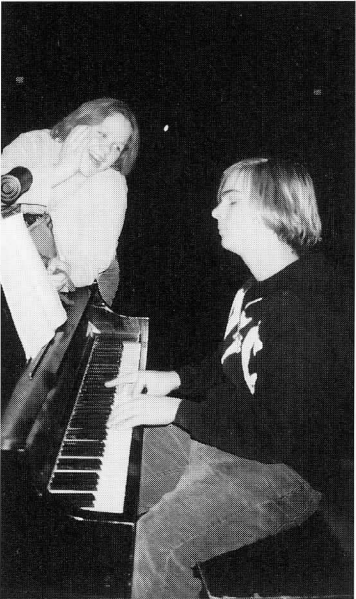

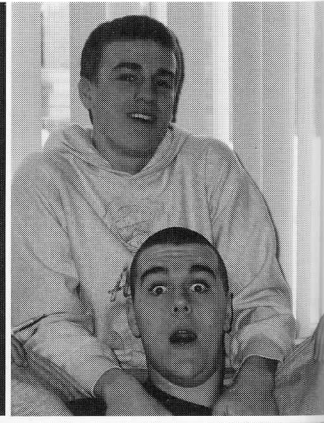

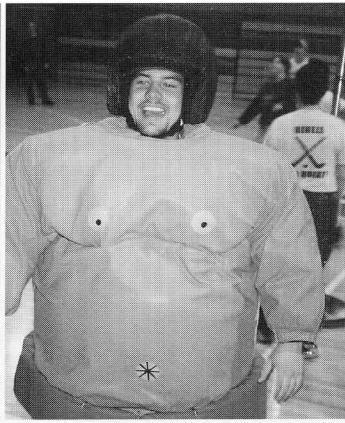

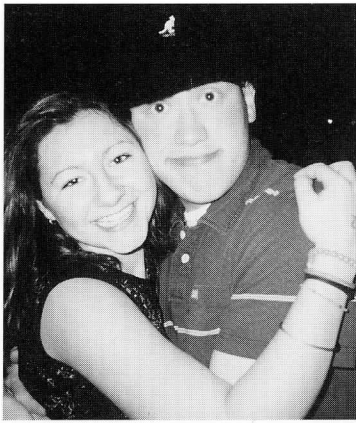

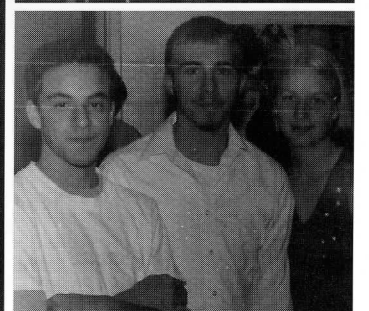

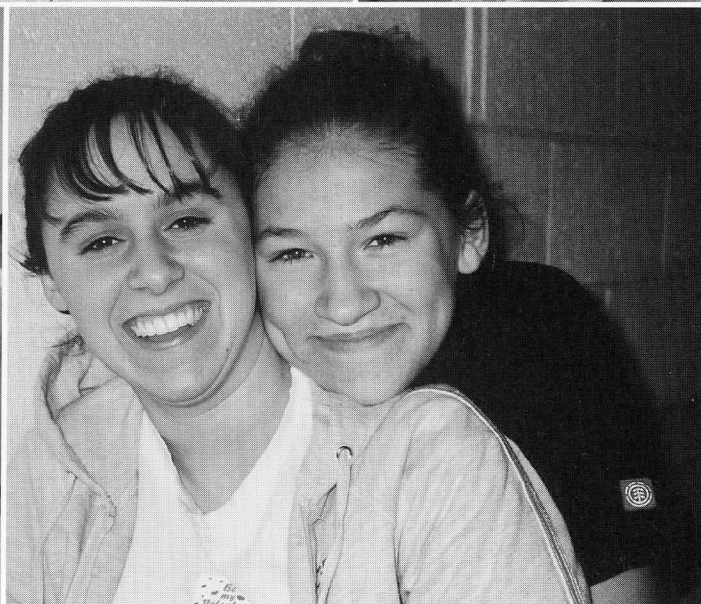

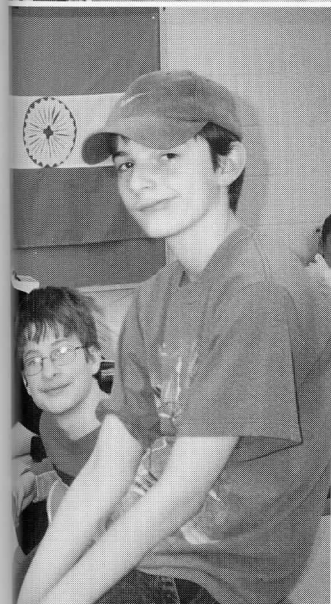

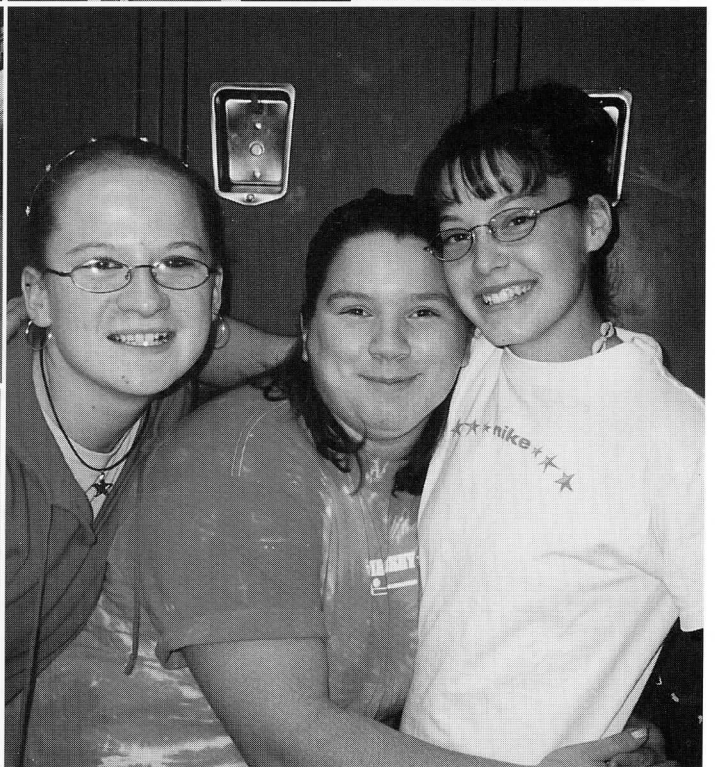

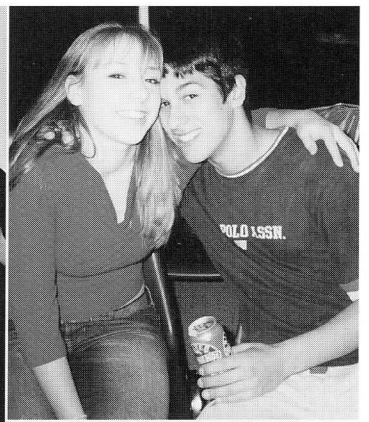

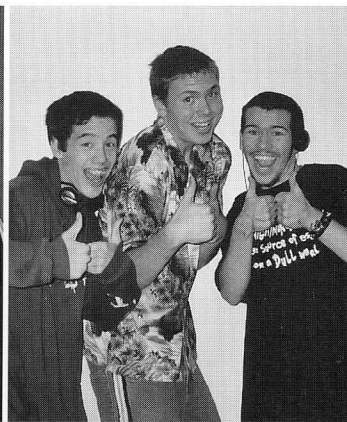

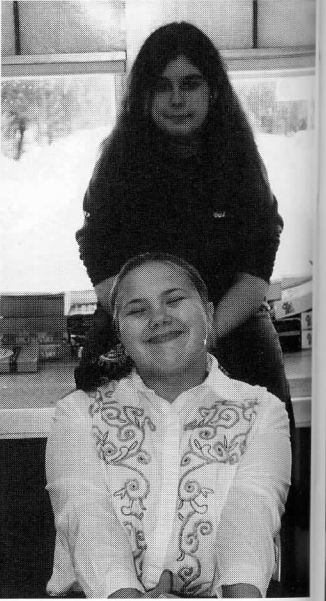

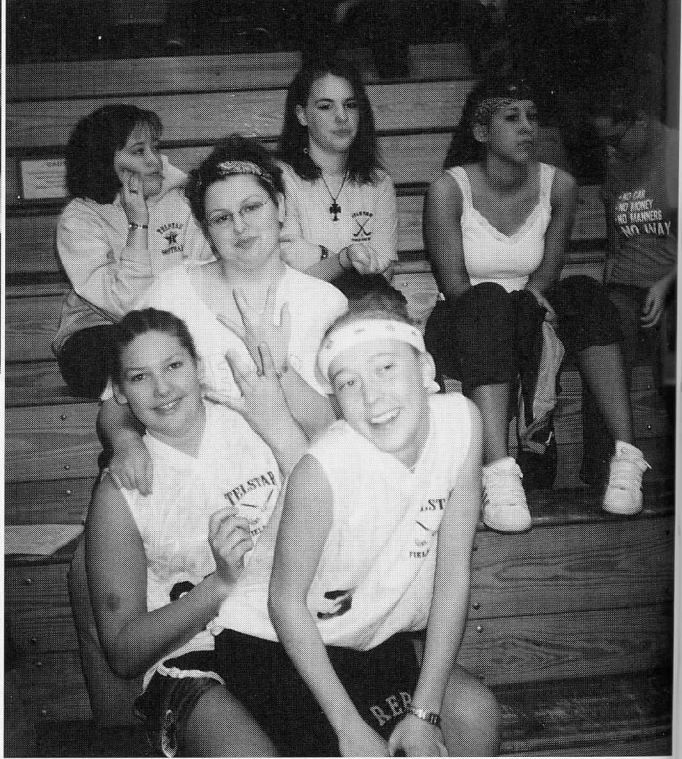

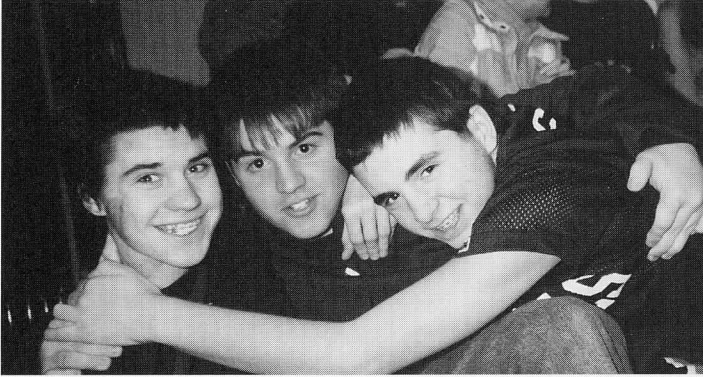

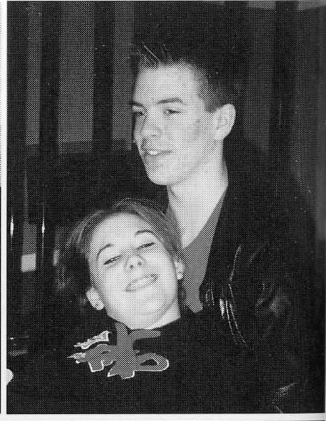

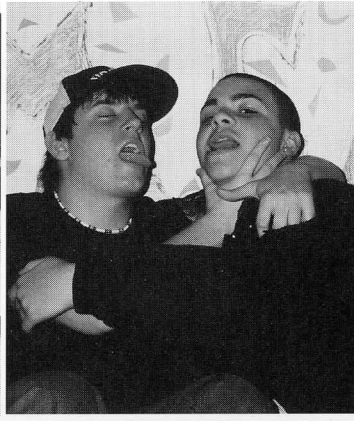

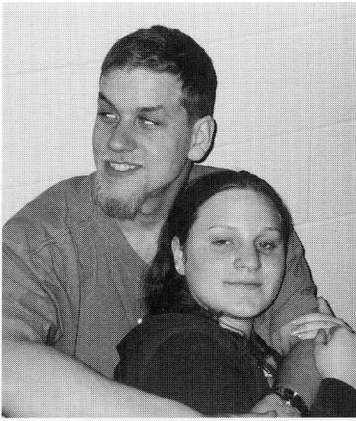

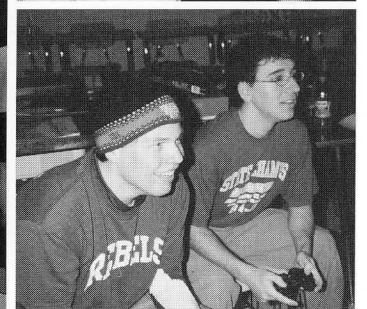

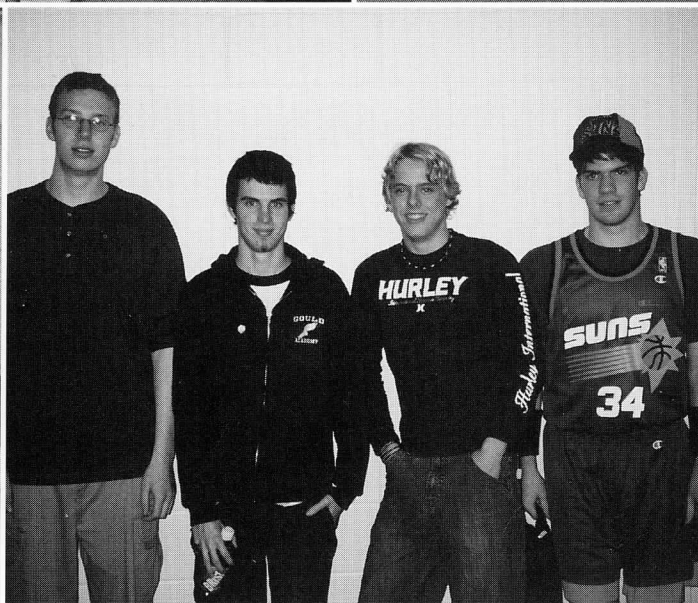

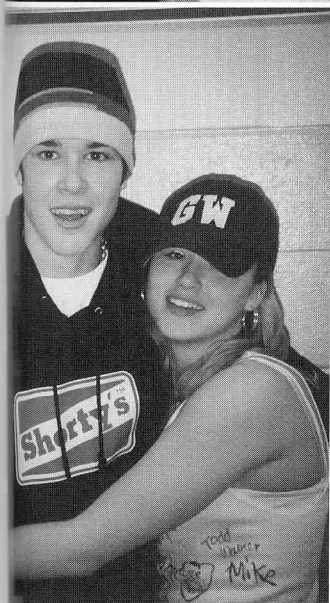

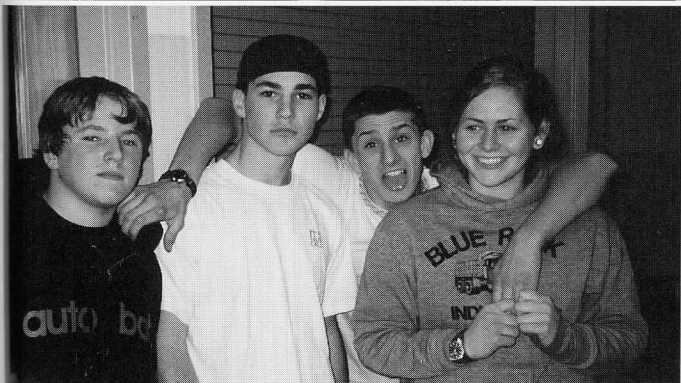

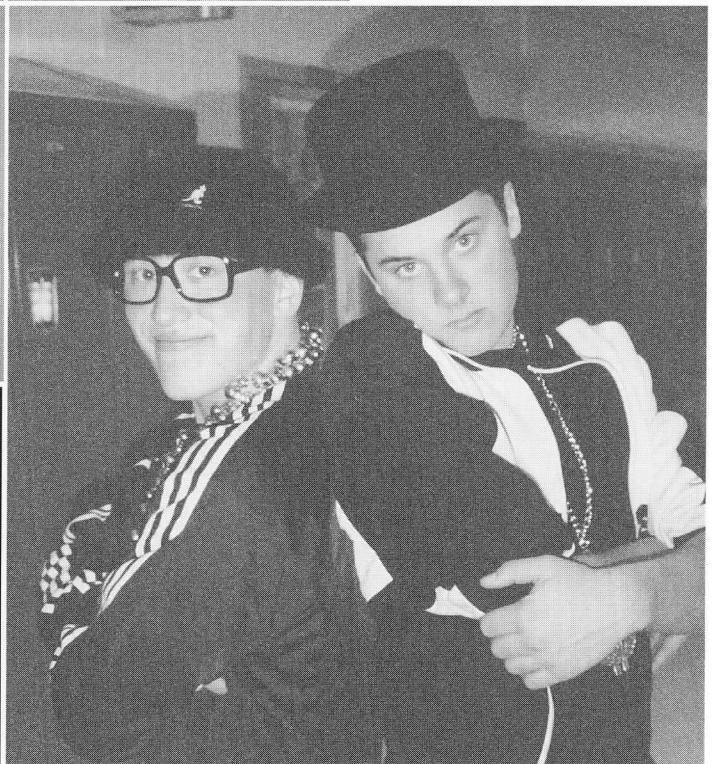

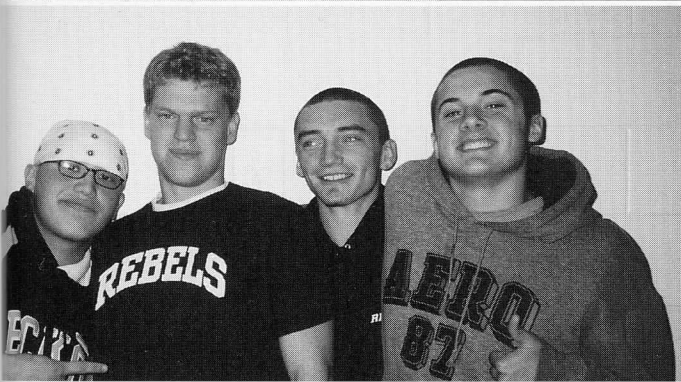

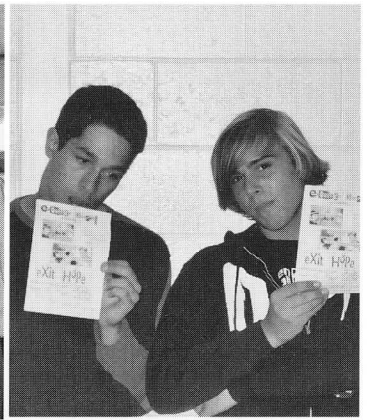

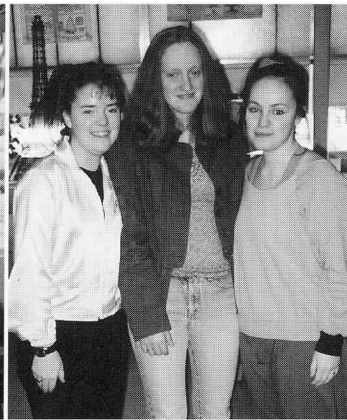

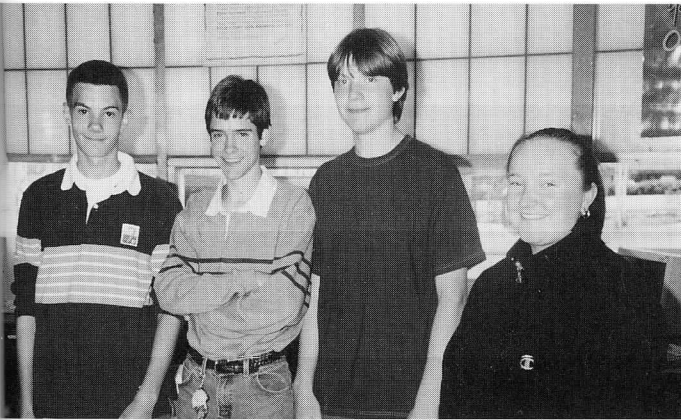

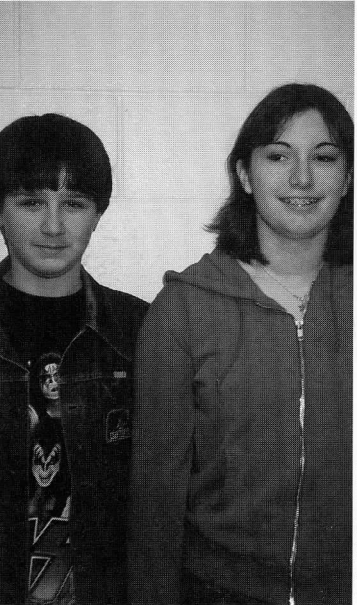

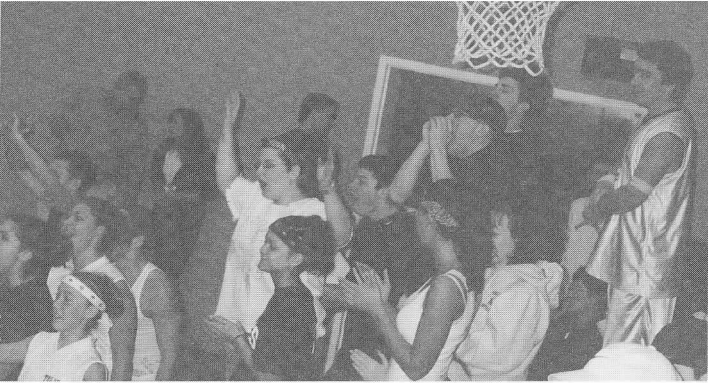

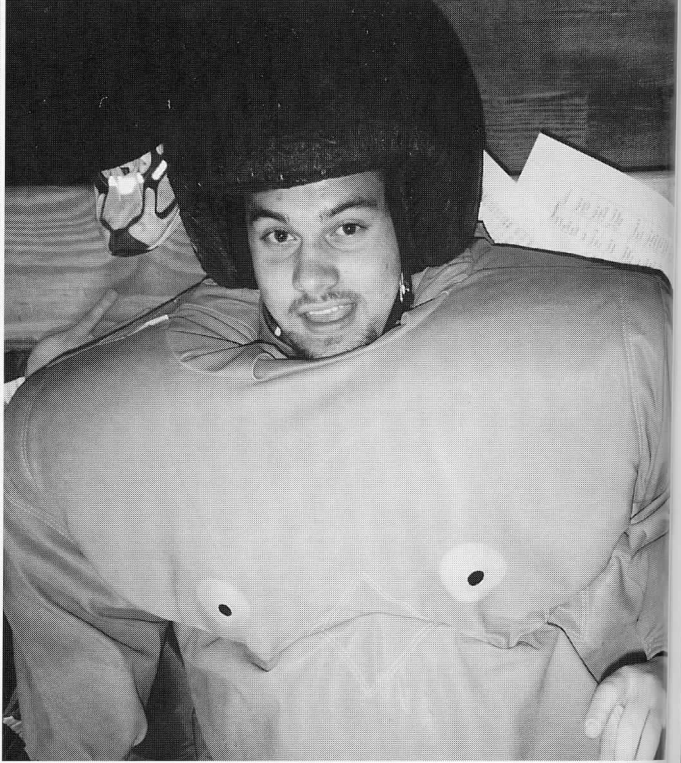

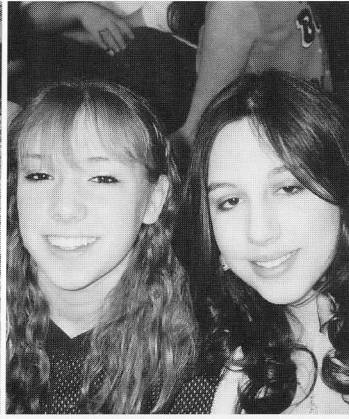

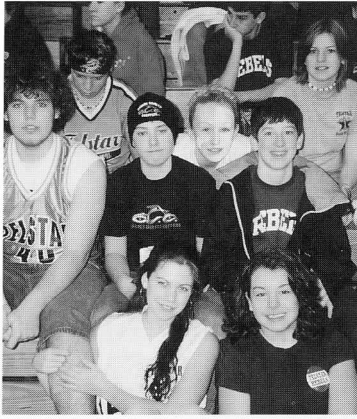

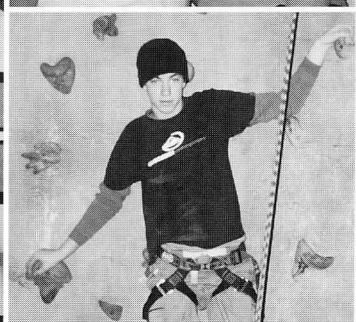

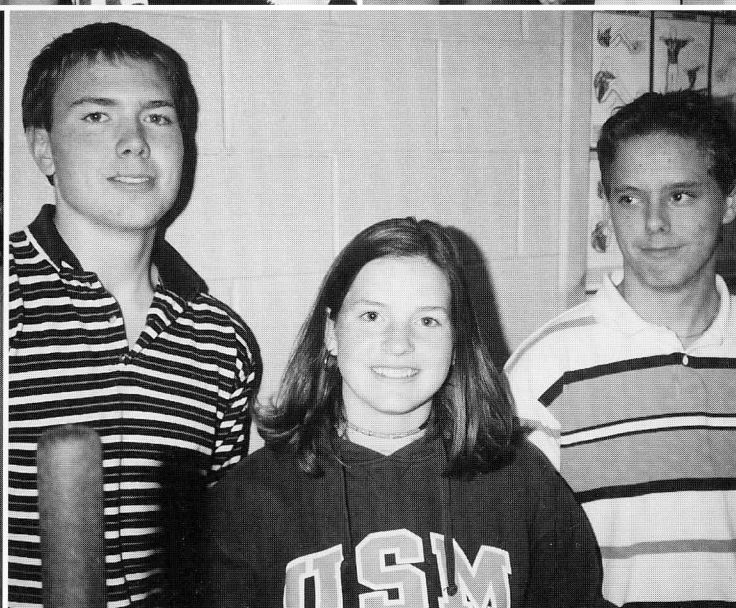

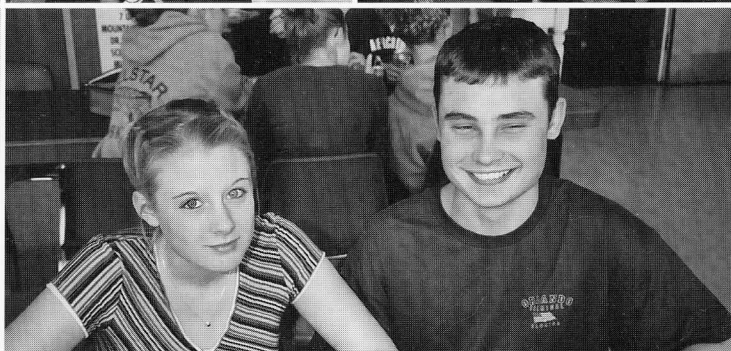

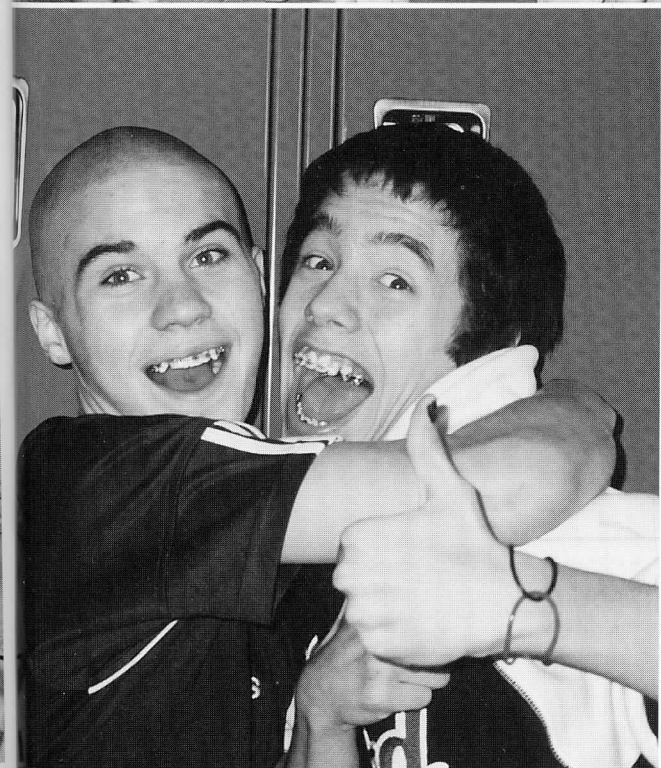

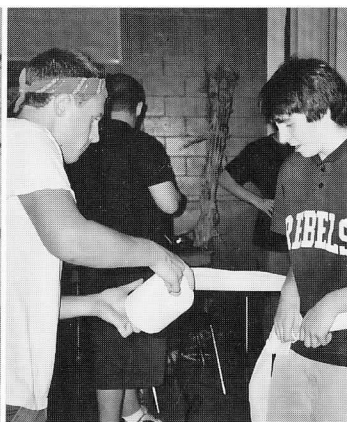

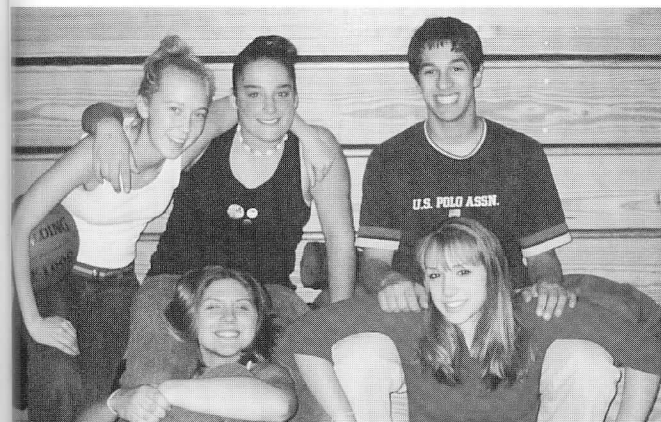

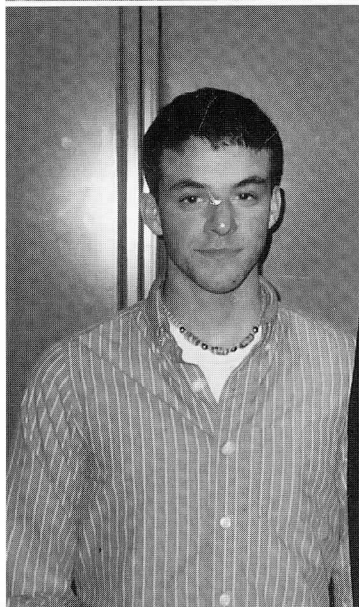

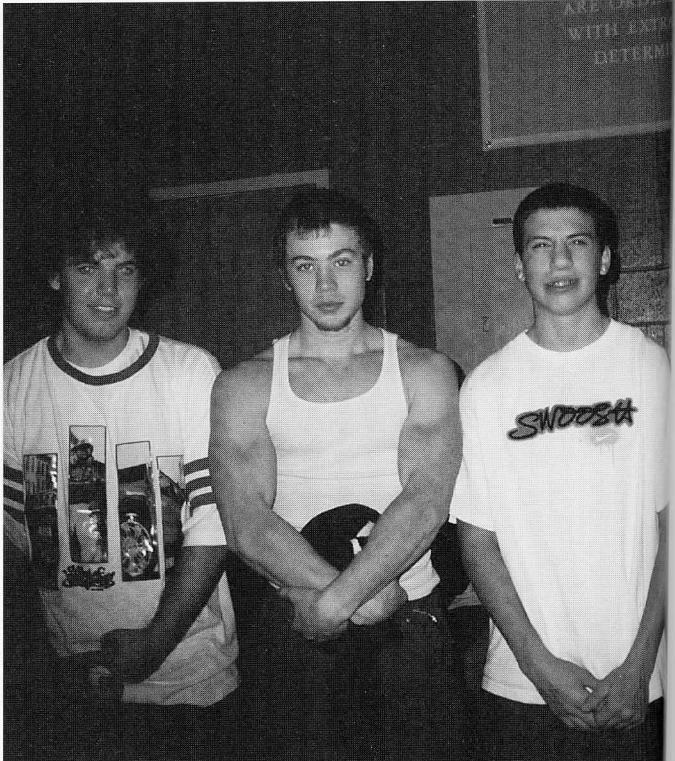

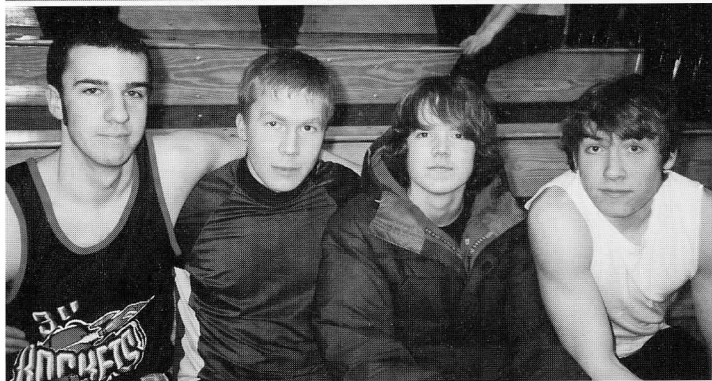

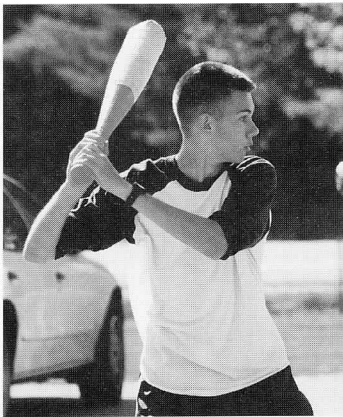

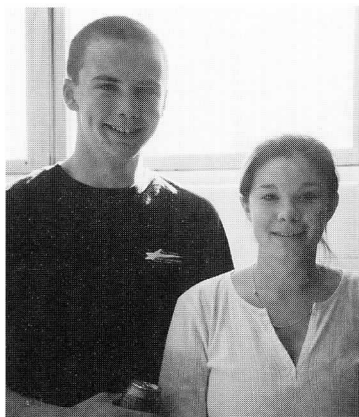

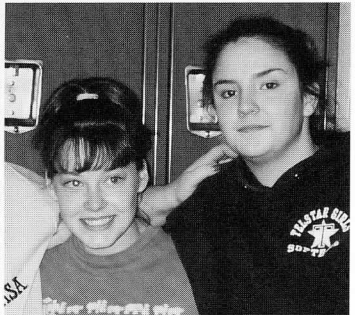

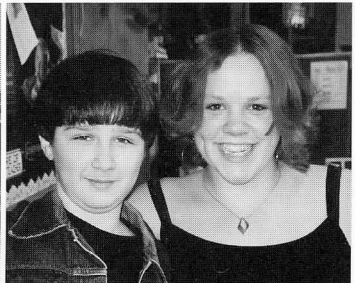

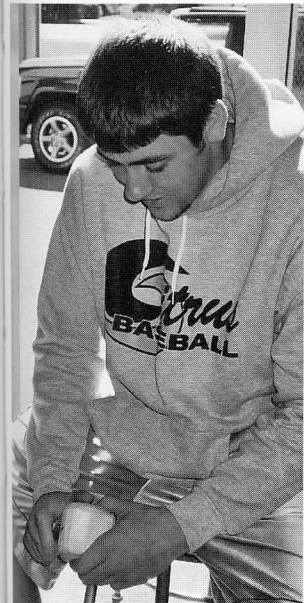

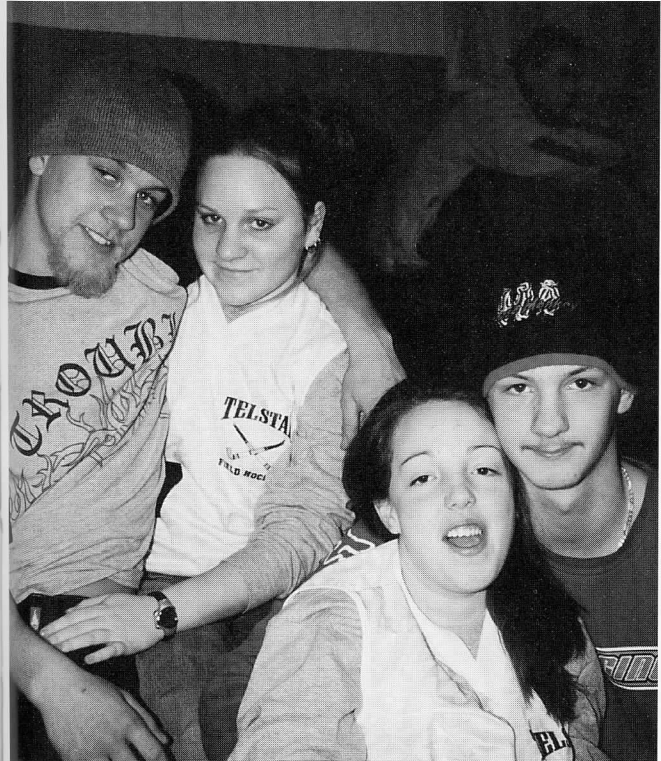

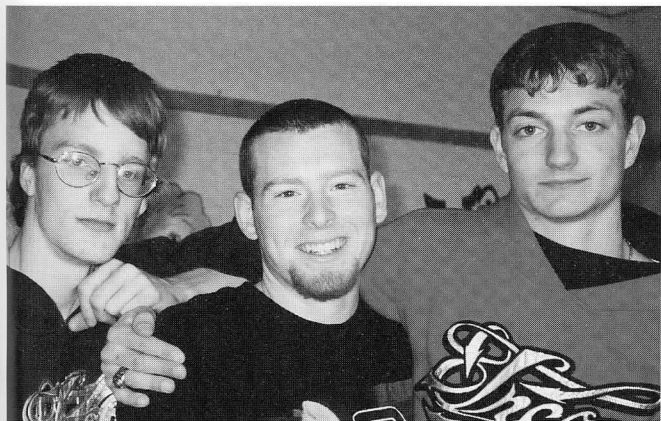

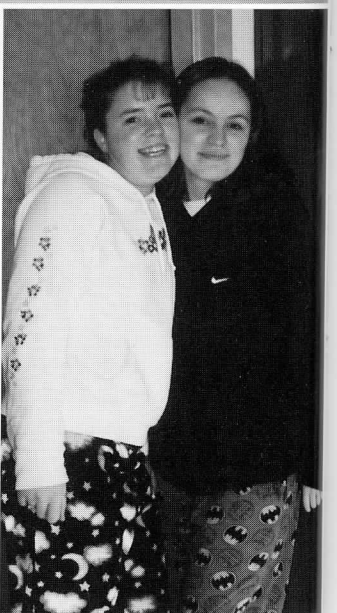

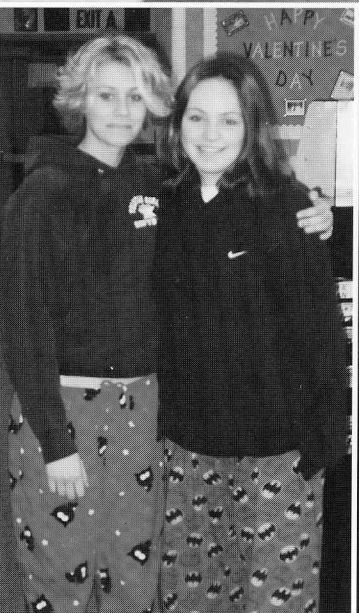

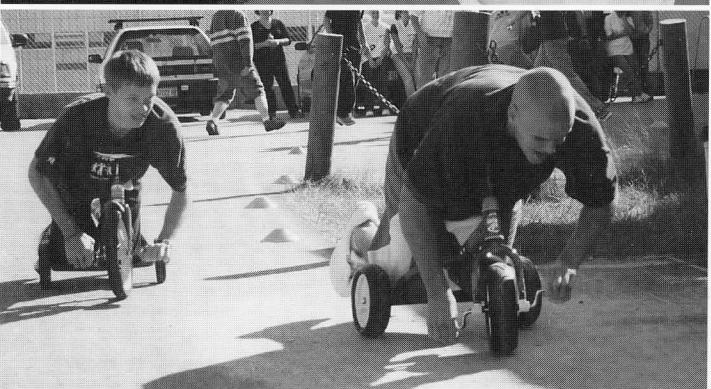

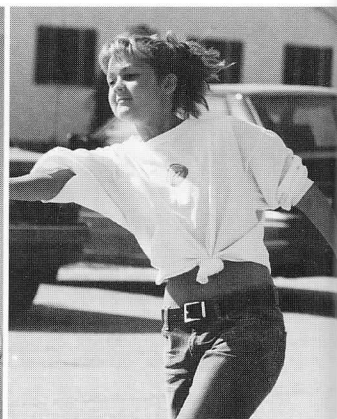

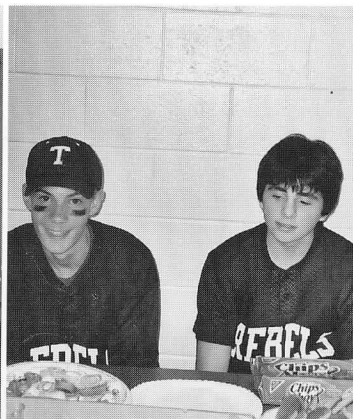

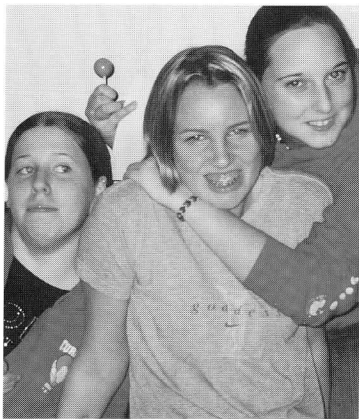

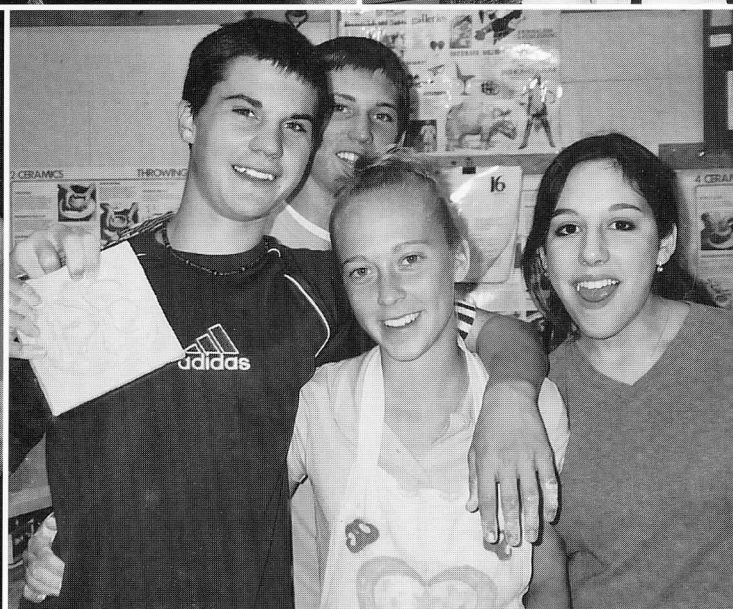

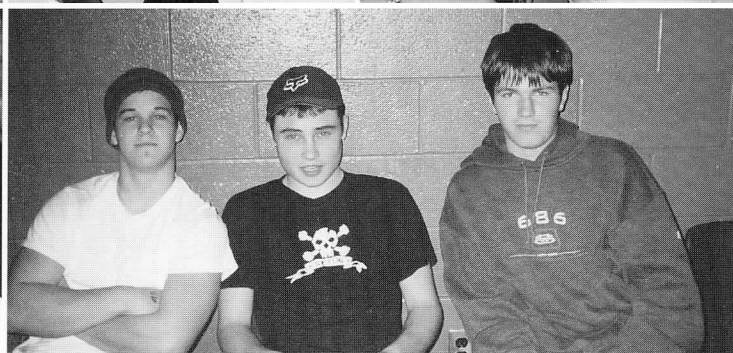

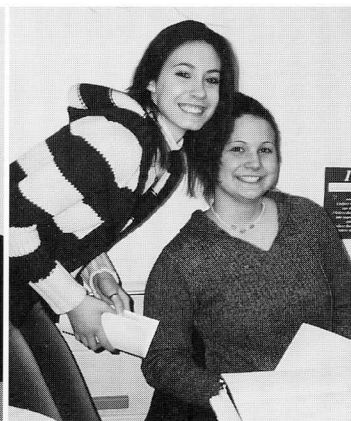

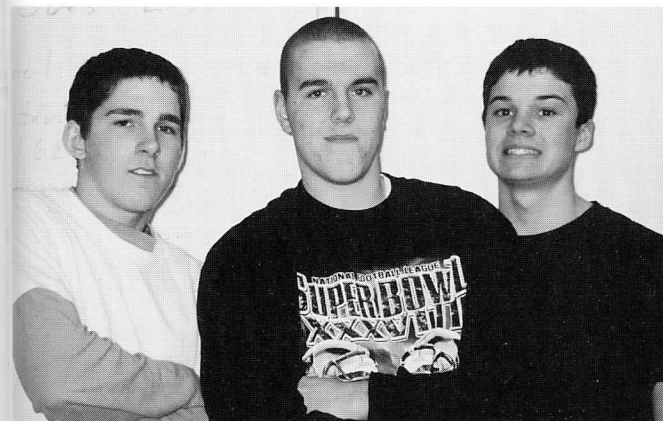

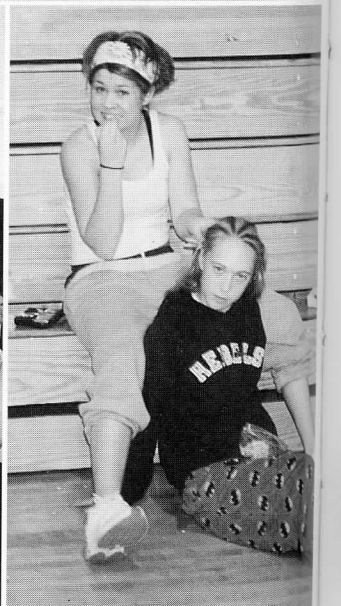

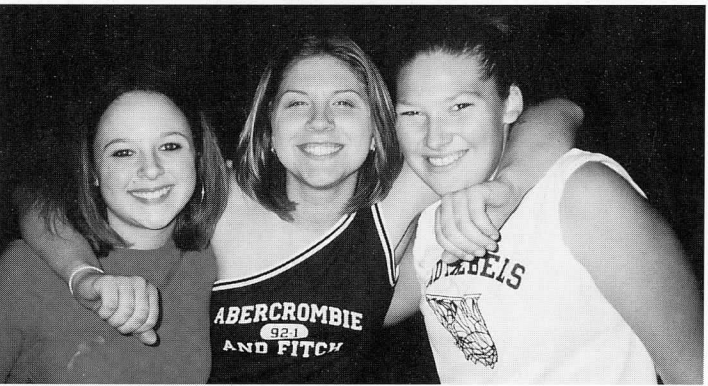

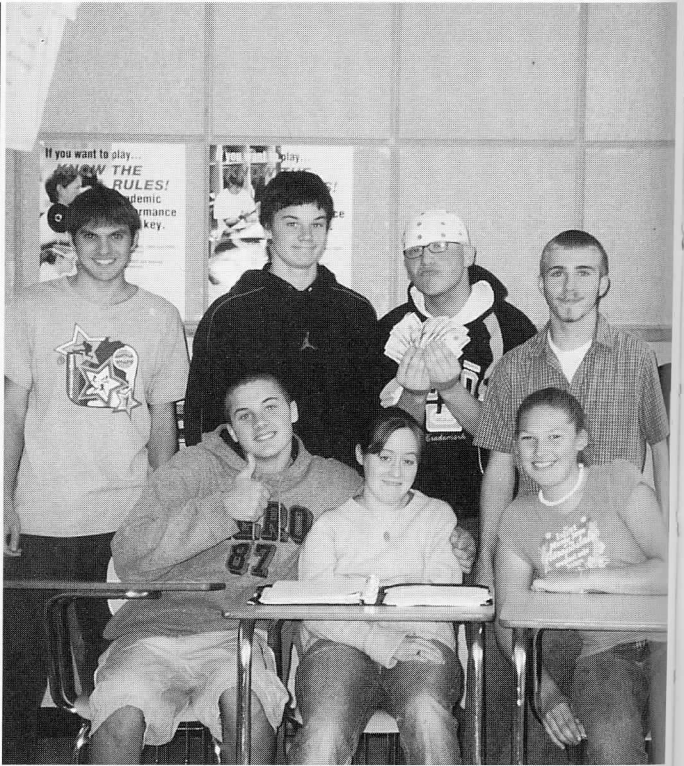

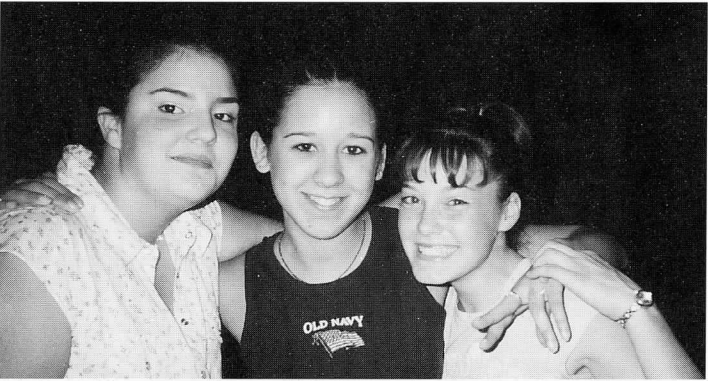

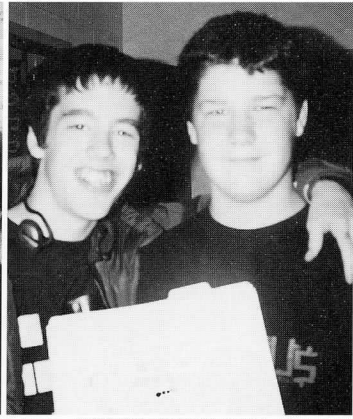

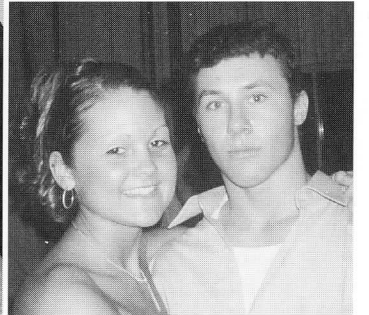

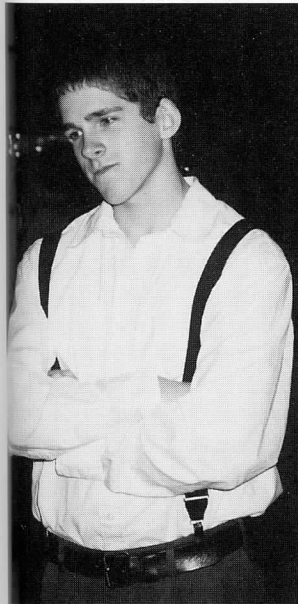

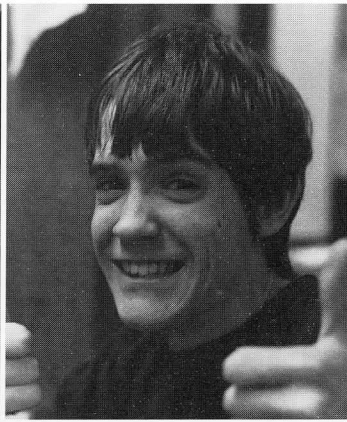

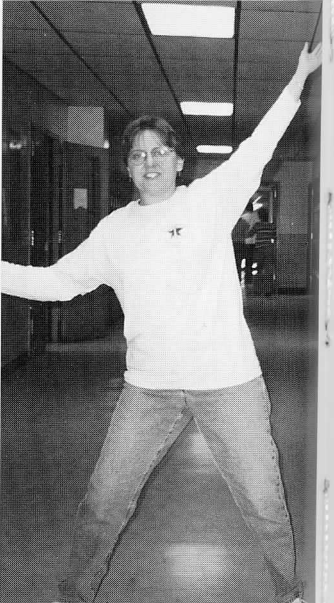

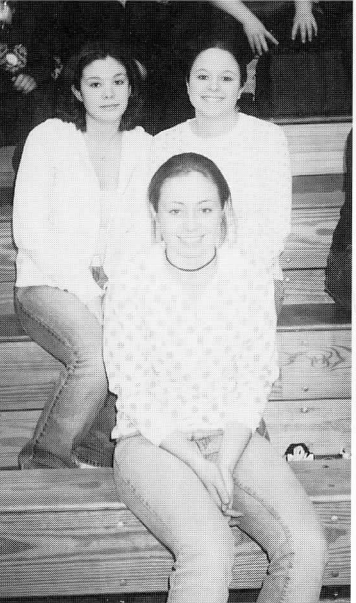

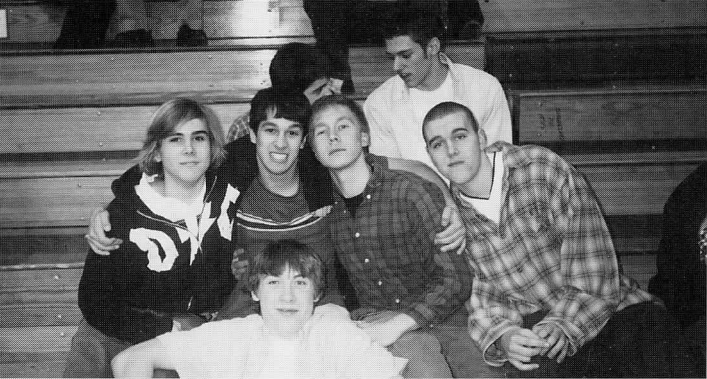

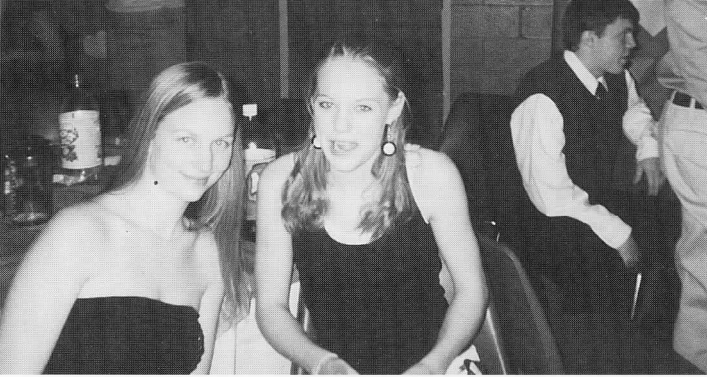

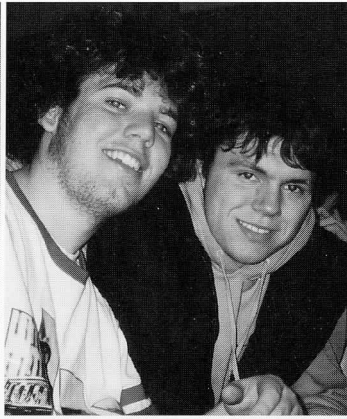

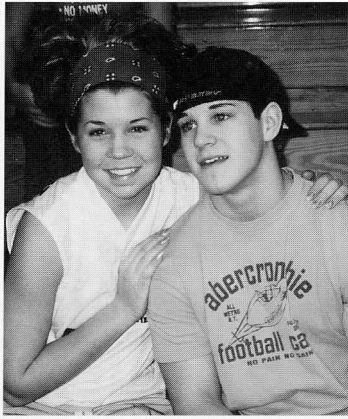

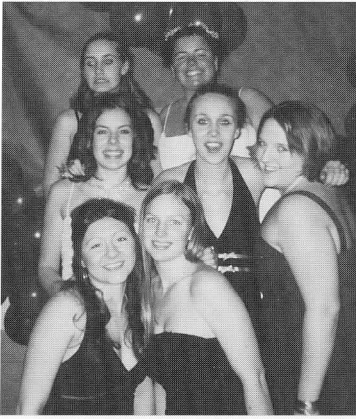

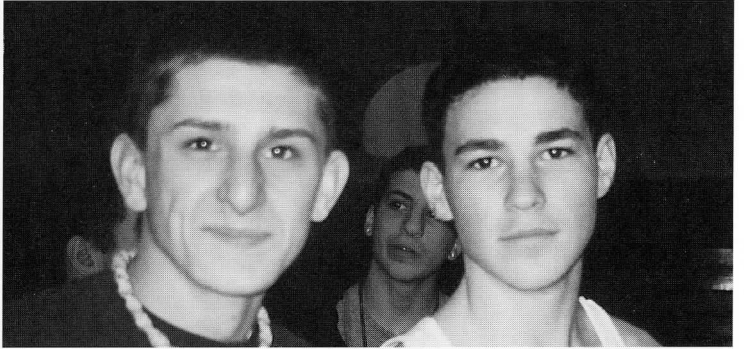

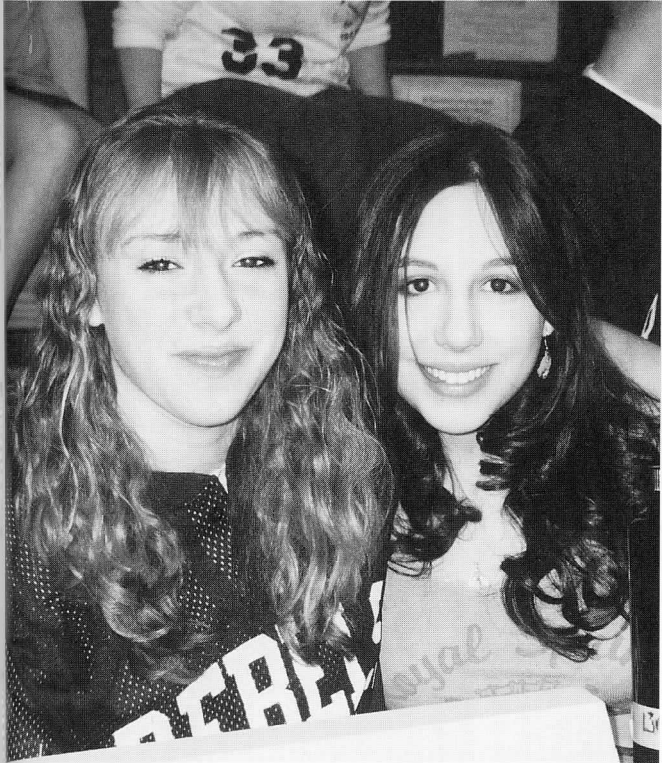

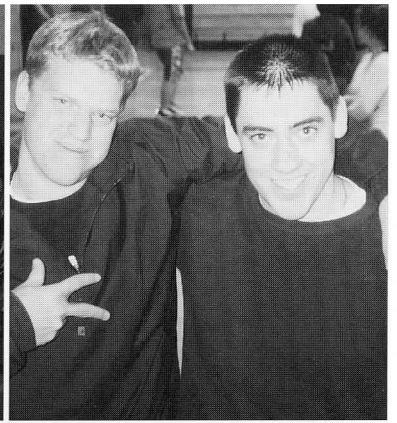

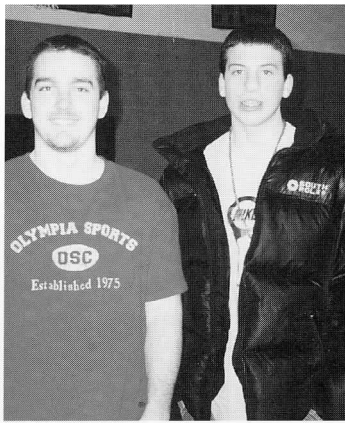

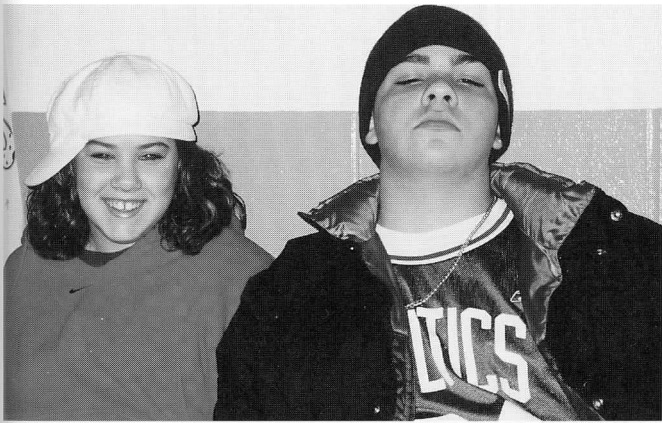

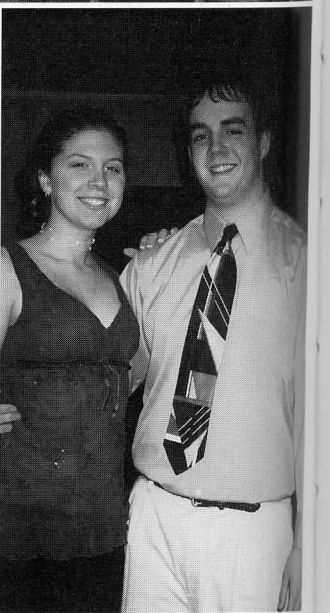

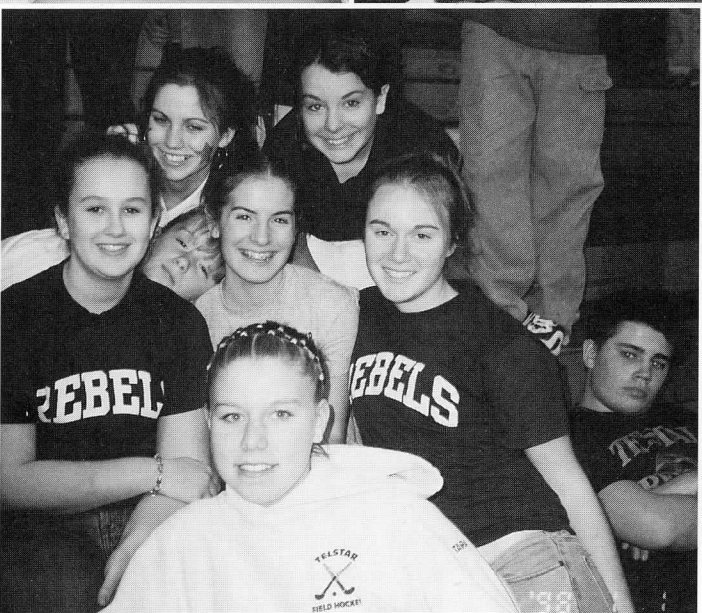

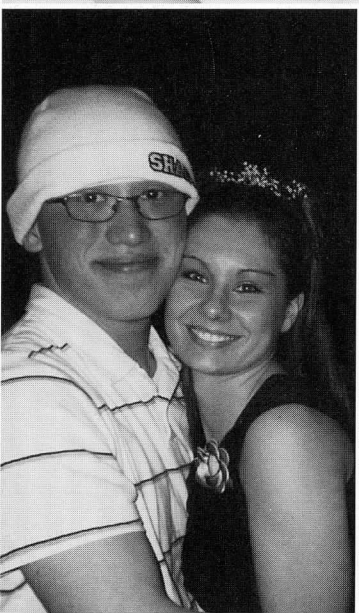

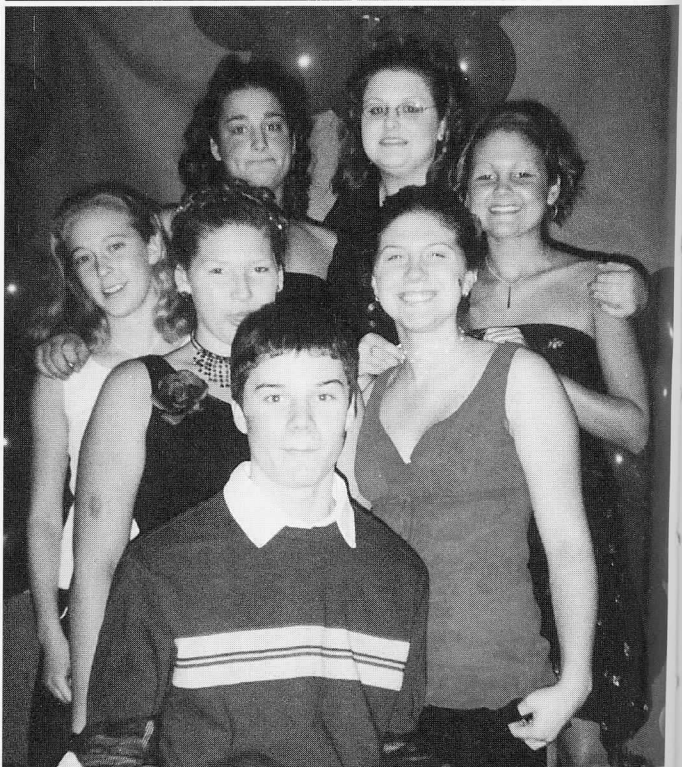

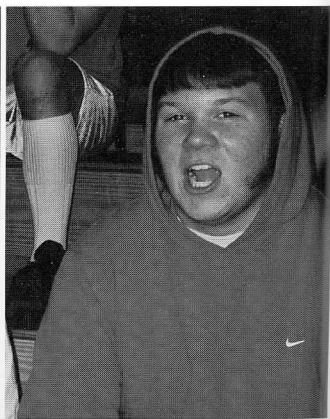

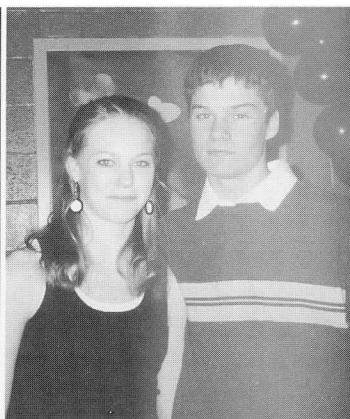

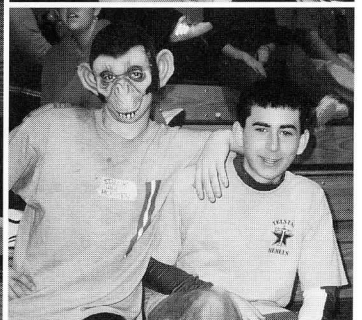

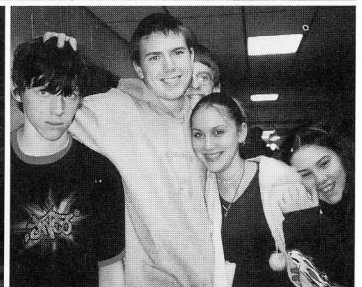

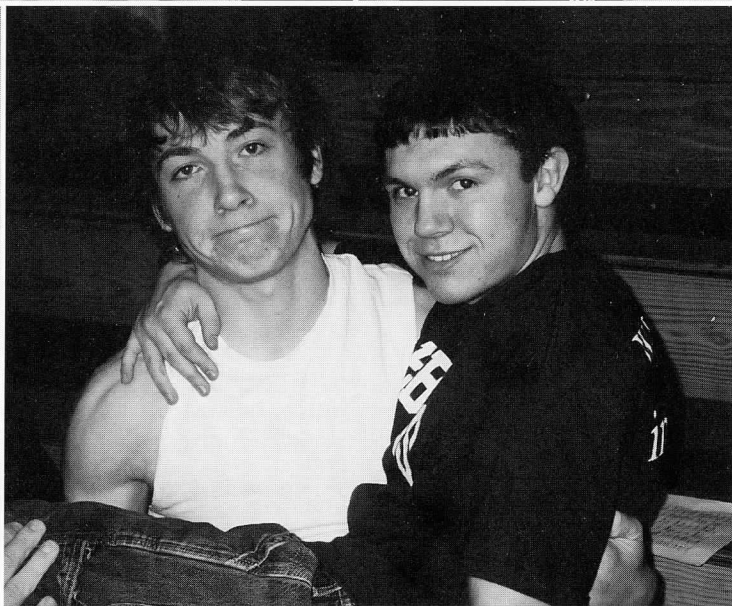

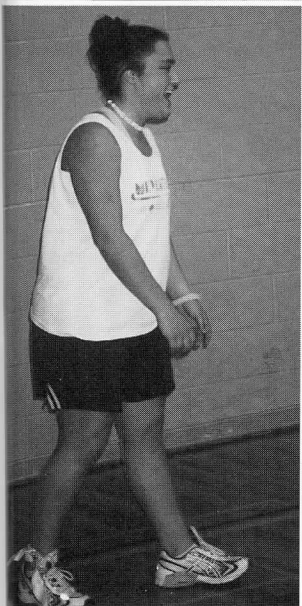

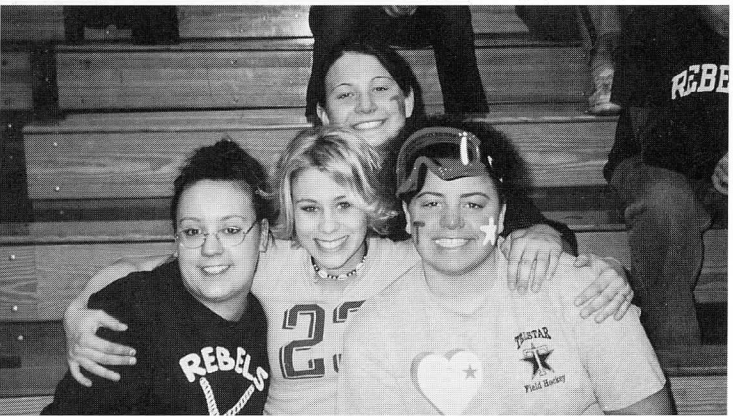

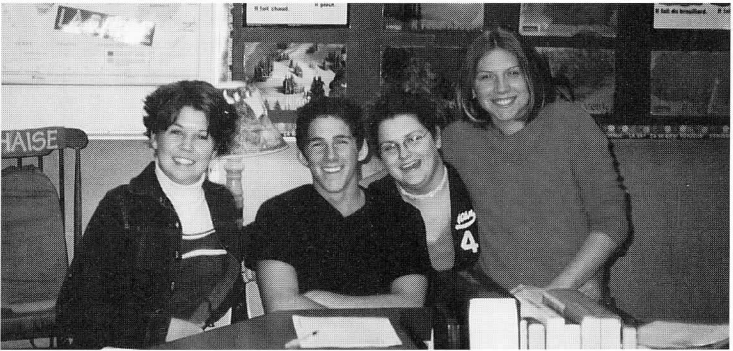

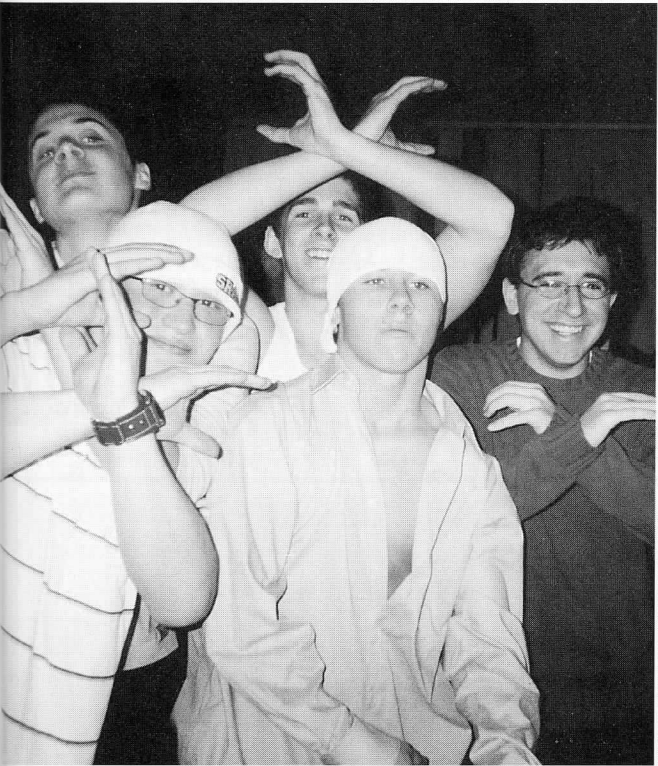

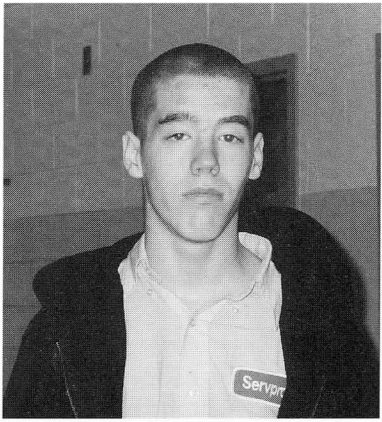

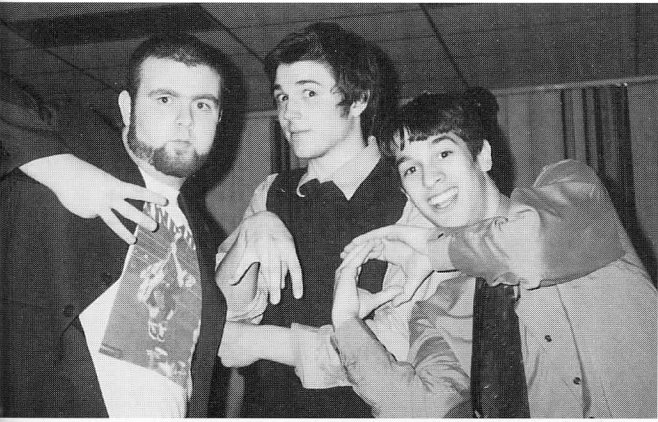

Alyson, you have always chosen to take the paths less traveled making your own way, blazing new trails for others to follow. Just continue to keep that approach through-out your life and you will go far and accomplish great things. Always remember 'When you do common things in life in an uncommon way, you will command the attention of the world.' You have always had your own sense of style and fashion, just remember fashion is ever changing, it's style that you need to always achieve. I know everything you do will be done with *grand* style. Always keep in mind that what is worth having is worth working for, always go in the direction of your dreams, live the life you have imagined! Last but not least Alyson, remember this: *There must be more than this provincial life! You want adventure in the great wide somewhere, You want more than we can tell, and for once it might be grand, to have someone understand, You want so much more than they've got planned... "If you can dream it, you can do it." Walt Disney* We love you and are proud of you! Love, Mom, Dad, Mathew, Grammie B. & Grammy S.

My Treasures

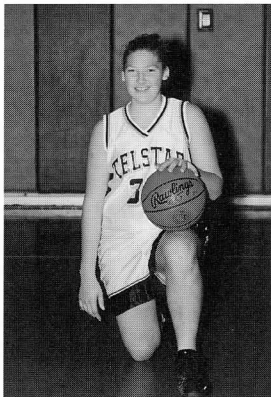

Nothing can erase the lovely things my life has know;
These treasures I shall always cherish as my very own.
The disappointments, unkind things, that have but touched my way I brush aside,
and quickly think upon the beauty of the day.

For each dawn brings a wonder I have not seen before,
And with that wonder comes the opening of still another door.

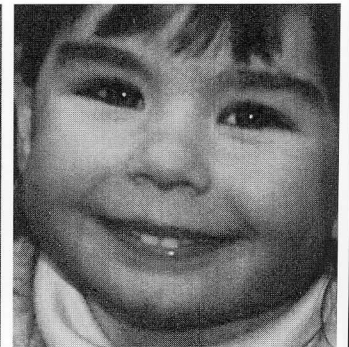

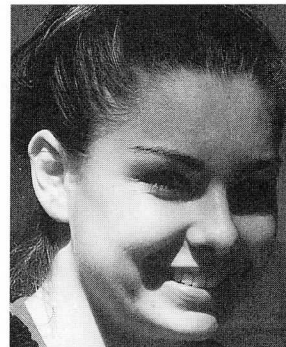

The blooming of a flower, the sunlight of the sea,
The kindness of a friend...
all these are joys to me.

Marcella E. Minard

Priscilla we are so proud of you! You have been through some rough times and have rose above them all. You have great determination to succeed in life. You can make it happen! You can be whatever you choose to be in your career. Just remember ASAP-Always Say a Prayer. "Lord help me to remember that nothing is going to happen to me today that you and I can't handle." You are special to us Priscilla and we love you more than words can ever say. We wish you lots of luck in your future. We will be here for you until the Lord takes us home. Grandmother Buker would be so proud of you also!

Krystle - We are so proud of you and your achievements. We enjoyed watching you play field hockey with that hard drive you have. We loved watching you play basketball because it's your game. I can't believe this day has come. Watching you crawl, walk and starting school and now graduating and becoming a lovely young lady. Krystle follow your goals and dreams. We love you very much. Congratulations. Love Mom, Dad, Maranda, Gramma and Grampa

Sheena from the first day of school to the last, Dad and I are very proud of you! Life has thrown you many challenges, all of which have made you stronger and wiser. We know your future is full of wonderful things to come. Congratulations!

Sheena, my big sis yea we've had our fights here and there but we've always been there for each other. You've helped guide me through the big "scary" world of high school which wasn't really that scary, but you helped me out a lot along the way. Well what can I say you're going off to bigger and better things and leaving me with this...I'm not sure how it's going to be without you here, but, I'm gunna miss you Sheena, your loving brother, Shaun.

Alanna Jade you are my sunshine, my world and the best part of my life. Thank you for always being you. You are truly an amazing, unique, caring and beautiful young woman. And I'm so very proud of you. With your enthusiasm and courage, I know that you will be successful. Always follow your heart. Remember your dreams. Be true to yourself. Give faith a chance and remember to dance.

I love you with all my heart,
xoxo-Mom-xoxo

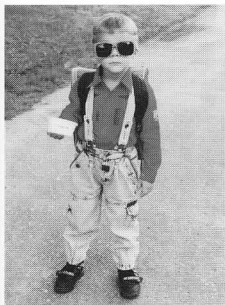

Dorcey, we are so very proud of you, My Little French Princess. Remember, "Live well, laugh often, love much." Don't ever let anyone or anything make you feel you are not special. You are a

unique child of the universe. "what lies behind us and what lies before us are tiny matters compared to what lies within us..."-Ralph Waldo Emerson. -- Love Auntie Lorna and Uncle John.

Dorcey, To my one and only, you've made me so proud. You are the first grandchild to go on to college. Keep up the good work and get your degrees so you'll have a good paying job when you get out of college. I will always be there for you. You are my whole world so make me proud. Remember the good times we've had and the great ones to come. Good luck with Simon. I love you Dorcey and I know you can do it. You deserve the very best. Love, Mom

Dork, Congrats on actually graduating, gotta give you some props, next you get to be the first to go to college. I know we've had our bad times but it is out numbered by all the good ones. It wouldn't be the same in the house without you. I'll definitely miss you when you're "gone." You'll be back though, so I guess I won't miss you too much. You can't be gone for that long anyways because I'll be the only girl in the family. I'll miss my horrible influence. Just kidding. Hope you succeed in life and you can pay my debts or bail me out of jail if it ever comes to it. Good luck in the future...Love Sis

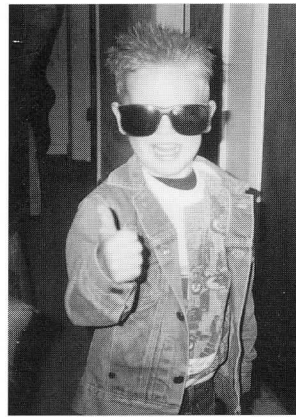

Yo man, I am proud of you and all of your accomplishments. Congrats on your graduation. Hope that all your hopes and dreams come true. Remember, family first doggo! Love Adam

Simon, you are the best. I love you. I will miss you so much when you leave. Over the years I've always been wanting you to leave so I can be the only child, but now when the event is actually coming up, I don't want you to leave. Whether you're gone or not, I will always love you and stand up for you. As your little sis, I am so proud of everything you've ever done. I'll miss you. Love your favorite lil sis, Felicia, P.S. I will think of you every day.

Simon, you are finally graduating from high school and moving on with life. Make every day a good one because you can not turn back time. Remember if you are not having fun or you are not happy with what you are doing, I will always be here for you. I love you for life. Dad.

Simon, this is always difficult for me to put so much into a small passage. As you know I am one for many words. You are truly gifted and my only hope for you is your continued happiness. As I look at these wonderful pictures of my "gorgeous baby" I laugh and cry with delight for you have come a long way. I know that there are new adventures for you and I believe you will never lose that drive you have. By the way you always say you are the "middle child". Simon, be humble to others and grateful for what you accomplish and there will be no stopping you. Again, remember I will always be here for you. With lots of love forever. Mom.

Good Luck Alex
